Johanna Bell
Luca Bosch
Niklas Maier
Sebastian Schwarz
Simon Vogelbacher
Yasmin Hoffman

Software Project
SS 2020

Protocol 14 - July 7, 2020

1 Time and duration of the meeting

13:00-17:30

2 Attended Persons

Johanna, Luca, Niklas, Sebastian, Simon, Yasmin

3 Discussed Topics

- We discussed how we want to modify the class diagrams so they would be as accurate as possible compared with the final code

- We figured out how the realtime database can be accessed via functions and how the functions there can be called dynamically

4 Conclusions

- We removed most of the authentication parts of the diagrams since those things will be handled by Firebase

- We decided to meet again tomorrow to finish the deliverable, since we will be studying for the exams the next days
